

# pregnancy twinning

**Give birth once.  
Give life twice.**

**Pregnancy Twinning is your way to give another woman the maternal care that every mum deserves.**

It's 60 times more dangerous to have a baby in Malawi than in the UK. Many women never see a midwife. But through Pregnancy Twinning, you can sponsor a mum to access medical advice, support and transport to the hospital, to make sure she has a safe pregnancy and birth too.
